**React:** Virtual DOM, Progressive Web Apps

**Database:** MongoDB, MySQL, IndexDB

**Other:** CSS, Webkitz, NPM, Agile Development, Node, Moblie Responsive UIs

### Project Highlights

#### Project Grovyle (Web Based Calendering App)

2020

- The application can provide simple outdoor ideas for the time and date depending on your calendar and location for the activity that is best suited for the day.
- Pulls data from a weather API and the outdoor leisure database to create a unique mobile first experience for the user.

#### NovelFilms (Web Application)

2020

- The purpose of this project is to create a mobile-first dashboard application that pulls from multiple APIs to display books and a related movie based on user search input.

### Professional Experience

#### Daikin Applied (Owatonna, Minnesota)

2020-Present

Final Electrical Wirer / Final Assembler

- Completed high-quality electrical products with skilled assembly of systems, supports and connections.
- Enhanced team performance with smooth distribution of needed supplies and subassemblies to each member.
- Labeled components and monitored use to keep accurate records.

#### Climate by Design International (Owatonna, Minnesota)

2016-2018

Sheet Metal Fabricator / Night Shift Team Lead

- Minimized resource and time losses by addressing employee or production issue directly and implementing timely solutions.
- Evaluated employee skills and knowledge regularly, providing hands-on training and mentoring to individuals with lagging skills.
- Set up and calibrated machinery to meet specific production requirements and meet desired tolerances.

### Education

#### Full Stack Web Development Bootcamp University Of Minnesota - Twin Cities

2020

- Server Side Development MERN Stack, Progressive Web Applications
- Browser Based Technologies HTML5, CSS, JavaScript, jQuery, Bootstrap
- Computer Science applied to JavaScript
